

JELlicoe TELLS OF DANGERS OF BRITISH FLEET

First Half of War Was Danger Time of British Grand Fleet.

JUTLAND BATTLE TOLD

Germans Had Edge on British Fleet First Two Years of War.

By Associated Press Leased Wire London, Feb. 12.—The danger to which the British Grand Fleet, short of cruisers and destroyers and with defenseless bases, was exposed during the first two and one-half years of the war owing to the Germans' use of submarines, mines and torpedoes, is described in a book by Admiral Viscount Jellicoe, former commander of the fleet published today covering the activities of 1914-1916. British Were Outnumbered.

Admiral Jellicoe pointed out that the German high fleet possessed 88 destroyers compared with 42 in the Grand Fleet and revealed that owing to the submarine menace the Grand Fleet in the fall of 1914 moved from Lough Swilly and only returned to the North Sea when the anchorage at Scapa Flow became reasonably safe.

Neither in October, 1914, nor in May, 1916, Admiral Jellicoe says, did the British margin of superiority justify him in facing the enemy to deplow on the port wing division, thus compelling the Germans to turn torpedo fire. There was a steady improvement after January, 1916, especially in the light cruiser and destroyer force with the Grand Fleet, and after the Battle of Jutland he considered it safe to risk the German torpedoes, while the inclusion of Class K submarines made the problem for the enemy more difficult for submarine attack than the British.

Were Ready in 1918. Regarding the situation in 1918 the Admiral said:

"The position was assured and we could have afforded risks which in 1916 would have been most unwise, and if the German fleet had come out to battle a terrible punishment awaited it."

Would Not Risk Fleet.

One-third of the Admiral's book deals with the battle of Jutland. Admiral Jellicoe dwells on the danger involved in leaving too much to chance in the fleet action, because "our fleet was the one and only factor to the vital existence of the empire and indeed the allies' cause."

"We had no reserve outside our battle fleet and could not in any way replace it in the event of a disaster, or even should our margin of superiority be eliminated," he continues.

He says he knew his ships were inadequately protected with armor compared with the German vessels of the battle cruiser type, while the Germans in the battle of Jutland were far better off in the number of destroyers. Also the Germans had a most effective armor-plating shell.

When the battle fleet approached there was a difference in reckoning between the British fleet and the battle cruiser squadron, due to the cruiser having been engaged for several hours and having repeatedly altered their course. Hence, instead of encountering right ahead, the enemy appeared on the starboard bow.

Tactics Which Won Victory.

Instant action was necessary, the Admiral says, and he decided to deplow on the port wing division, thus compelling the Germans to turn off to the starboard to avoid being crossed. This maneuver which has been described as masterly by the reviewers, threw the enemy into complete confusion. The German commander in chief realized that his only hope lay in escape and profited by his superior torpedo craft, low visibility, approach of darkness and the proximity of his bases and mine fields.

The enemy in this predicament fired hundreds of torpedoes, the Admiral continues, an although the Germans were in gravest peril the position of the Grand Fleet itself was menaced by the determined torpedo attack in such weather, but the British fleet, by turning the battle line four times, got clear of the torpedoes which were racing toward the British ships and defeated the tactics on which the Germans based their hopes.

Admiral Jellicoe explained why he did not seek a night action with the German fleet and refers to the more powerful searchlights, the superiority of the enemy in destroyers and the greater number of torpedo tubes fitted in enemy ships, giving the enemy the opportunity of scoring heavily at the outset of any action the result of which would always be a matter of chance.

After estimating the relative strength of the two fleets early in the war the Admiral expresses surprise that the Germans were so cautious.

AUTO THIEVES TAKEN HERE YESTERDAY MAKE CONFESSION OF THEFT

Willard Knight and Thos. Dempsey Admit Having Taken Mercer Car.

KNIGHT'S BAD RECORD

Recently Broke Jail in Wisconsin After Stealing Marmon Machine.

When late yesterday afternoon Officer Seagren, assisted by Sheriff Schoenholtz, arrested Willard Knight and Roy Sweeney, each aged 20, companions of Edward Sullivan and Thomas Dempsey who were taken into custody earlier in the day for the theft of Frank C. Ryan's Mercer touring car, he rounded up a gang of young auto thieves for whom the Chicago officers had been looking for some time.

This was learned last night when Sergeants Touhy and Gilso, of the Chicago Detective Bureau arrived in Dixon to get the four prisoners, of whom Knight and Dempsey late in the afternoon confessed to the theft of the Ryan machine from in front of the Blackstone hotel Sunday night.

Knight Broke Jail.

It was learned that Knight and another companion had some time ago stolen a Marmon machine and had driven it as far as Waukon, Wis., before they were captured. While locked in the city jail at that place Knight escaped by tearing up part of the flooring of his cell and the Chicago authorities had been looking for him since. The officers took the young bandits back to Chicago at 11:01 this morning.

No Reward On Car.

Mr. Ryan, owner of the car, accompanied by Mr. Garrity, a relative of the Chicago Chief of Police, arrived here this morning to drive the recovered machine back to Chicago. Mr. Ryan stated no reward had been offered for the return of the car or the apprehension of the thieves, as he had had the car fully insured against theft.

Accordingly it looks as if the local officers, who worked so efficiently and well, and Mr. Dockery, who gave them the tip, will have to look to the insurance company for any compensation they may receive for their work in recovering a stolen car and arresting the thieves before the theft of the car had been announced by the Chicago police department.

Fifteen Illinois Men in Day's Casualty List

The names of six Illinois soldiers are included in this afternoon's casualty report released by the war department, which is:

Killed in action, 15. Died from wounds, 15. Died of accident and other causes, 4.

Died of disease, 39. Wounded severely, 53. Missing in action, 10. Total, 136.

The morning list consisted of the names of 135 severely wounded men, nine of whom were from Illinois.

Farm Management to Be Meeting's Theme

L. S. Griffith, County Agent for the Lee County Soil Improvement association announced two farm management meetings to be held at St. Patrick's Hall, Friday, and at Nachusa hall next Tuesday. The meetings will begin at 10:30 a. m. and will continue not later than 4 p. m. the morning sessions to be devoted to individual help and discussions of important factors in farm management, such as crop rotation and distribution of labor. The afternoons will be given over to keeping the record and summaries.

24,000 U. S. Army Men Found to Be Tubercular

Washington, D. C., Feb. 12.—Twenty-four thousand soldiers have been discharged from the army as tubercular since the beginning of the war, the senate buildings committee was told today by Dr. W. G. Stimpson of the United States Public Health Service. He said the history of tubercular patients indicated they would be in hospitals one-third of the time. Tentative plans of the public health service for adding 2,000 beds to existing hospitals were described.

DIXON MEN DISCUSS PLANS FOR THEATER

A Beautiful Moving Picture and Vaudeville House is Planned.

MEETING LAST NIGHT

A dozen Dixon business held a meeting last night at the Nachusa Tavern to discuss the proposed new theater project, and plans toward the organization of a stock company were started.

As has been stated in The Telegraph an option for a long term lease on the Countryman building on Galena avenue, between First and Second streets has been secured. The building is 140x52 feet and a theater seating upwards of 1,000 persons in a very comfortable manner, could be easily constructed, it is said.

If the project goes through a ground-floor theater of magnificent appointments, thoroughly modern and very beautiful, will be constructed.

It would be a moving picture theater primarily, but would be built with ample stage room, etc., to accommodate the biggest road shows and entertainments.

Runaway Boys Had Not Reached Home

Sheriff Schoenholtz this morning received a letter from the sheriff of Milwaukee stating that the three boys who ran away from their homes there and were taken to Chicago a week ago today by the local sheriff, who turned them over to a policeman at the Northwestern station with instructions "to see that they boarded a Milwaukee bound train, had not yet arrived home.

Scarboro Divorce Draws Big Crowd

The divorce suit of Mabel T. Fisher vs. Carey Fisher was on trial in the circuit court today, a large number of Scarboro people attending. The defendant is contesting the suit which charges drunkenness and cruelty. Attorney John E. Erwin is counsel for Mrs. Fisher and H. A. Brooks is attorney for the defendant.

NORTH DIXON MAN IN AUTO ACCIDENT TODAY

James W. Andrews Drove Machine Into Moving Street Car This Morn.

James W. Andrews, 412 E. Chamberlain street, was painfully, but not seriously, hurt this morning when in turning the corner at North Crawford ave. and E. Chamberlain street he collided with a northbound Colouy car, in charge of Motorman Harry Himes.

Because of the speed at which he was driving he was unable to turn quickly enough to avoid striking the car and the heavy interurban pushed the wrecked machine fully thirty feet before it could be brought to a stop. The radiator, one wheel, windshield and fenders of the Ford automobile were demolished and Mr. Andrews was bruised and scratched considerably.

GOSSARDS TO RE-OPEN FACTORY IN THIS CITY

Samuel Gossard is Here This Week to Make Necessary Arrangements.

NOT ASSEMBLY PLANT

Samuel Gossard of the Gossard Corset company, is in Dixon this week making arrangements to re-open the company's plant in the old piano factory building, announcement of which intention on the part of the company he is sponsor for.

He stated that the Dixon plant will not be used as an assembly factory, as it was when formerly operated, but will be utilized for the manufacture of certain parts of the company's fine line of corsets, these parts to be sent to some other factory for incorporation in the completed articles. More and fuller announcements of the company's plans for the Dixon factory will be forthcoming later.

JAPS REFUTE CHINA CHARGE

By Associated Press Leased Wire Tokyo, Feb. 12.—Vice Foreign Minister Shidehara, speaking for Viscount Uchida, Foreign Minister who is suffering with pneumonia, has made the following statement: "Japan has no intention of interfering or making any demand or contention with the Chinese if they prefer to present their secret treaties to the peace conference. Peking and Paris reports to the contrary are untrue."

BRITISH WORKMEN IN REFUSAL OF GOVERNMENT OFFER OF HELP

Miners, Railroad and Transportation Men Want Better Terms.

ASK FOR SIX-HOUR DAY

By Associated Press Leased Wire London, Feb. 12.—A conference of the miners' federation of Great Britain will take place at a meeting at Southport today to decide against the acceptance of the terms offered by the government for the settlement of the demands made by the federation. The miners want a six-hour day and a 30 per cent increase in wages. The federation membership is 800,000.

Representatives of the National Union of Railroad Men with a membership of 40,000 and the National Transport Workers Federation with a membership of 250,000 will also confer today with the government. The railroad men demand a 44-hour week and control of the railroads by representatives of the management and the workers.

The transport workers ask a 44-hour week and wage advance of 20 per cent.

The decision of the miners' federation conference to reject the government terms will, if followed by a strike, which seems likely, create an extremely serious industrial situation, as the coal shortage is already embarrassing.

TO HOLD ELECTION ON SCHOOL CONSOLIDATION

Decision to Submit Question to Voters Was Reached Last Evening.

IN THE NEAR FUTURE

At a meeting of the members of the boards of education of the Dixon school districts and a committee from the Chamber of Commerce held last evening, the proposed consolidation of the two districts was thoroughly discussed, and it was determined to submit the proposition to the voters of the two districts at a special election to be held soon. The date for the election will be announced later.

Many arguments have been put forth during the past four years for the consolidation of the districts, and it is believed the time is now ripe to allow all of the voters of the districts to express themselves.

It is pointed out by many citizens that the maintenance of two separate school districts in Dixon is expensive, inefficient and impracticable; and there are many who believe a single district, with a single board of education, one directing head, uniformity of courses and more convenient arrangement for pupils to attend schools is highly desirable at this time.

Income Tax Returns Due March 15th

By Associated Press Leased Wire Washington, D. C., Feb. 12.—Treasury officials today reiterated that there would be no extension of the time for filing income and profit tax returns beyond March 15. This applies alike to individual incomes, corporation incomes, and profit returns, and to similar reports required by the law on that date.

Officials denied rumors reaching the treasury that extension might be granted in certain cases for these returns.

Additional time may be granted, however, for so-called "information at the source" reports. These are required from persons or business interests which paid more than \$1,000 last year in salaries and wages, rents and a number of other specified classes of expenditures.

ASSASSINATION OF PRESIDENT PLAN IS BALKED

I. W. W. Leader Arrested and Charged with Great Conspiracy.

PLOT M'ADOO MURDER

Loyal Italian Convicts Told Authorities of Murder Plot.

By Associated Press Leased Wire Kansas City, Mo., Feb. 12.—Pietro Pierre, alleged I. W. W. leader arrested yesterday in Cleveland, O., is to be tried in Kansas City, Kas., on a charge of conspiracy to kill President Wilson. Fred B. Robertson, district attorney for Kansas announced here today.

The plot was to have been carried out "as soon as possible after the return of the peace delegation" from France, according to a federal warrant issued by Robertson.

The alleged plot also included William G. McAdoo, former Secretary of the Treasury, according to Secret Service men. The scheme is said to involve a number of anarchists and to have been revealed by the loyalty of two Italian convicts serving sentences in the federal penitentiary at Fort Leavenworth, from which Pierre was released October 14, last, after serving a year for opposition to the selective draft.

Chicago was apparently the place where the plans were made. R. Bobbs, a Chicago I. W. W., sentenced last January to eighteen months in Leavenworth is alleged to have informed Pierre of his selection for the attack on the President.

LINCOLN'S WORK IS CHALLENGE TO THIS NATION'S PROBLEMS

Congressman Rodenburg in Address Before Joint Session.

ATTACKS BOLSHIEVISM

By Associated Press Leased Wire Springfield, Ill., Feb. 12.—In an address today before a joint session of the Illinois Assembly, Congressman Rodenburg of East St. Louis referred to Abraham Lincoln as "one of America's grandest contributions to the world's heritage of great and noble men," and declared as a challenge to America that the days of reconstruction now at hand loom large because of Lincoln's example.

The exercises were in celebration of Lincoln's birth anniversary and the hall was packed with townspeople.

Attacking Bolshevism Congressman Rodenburg said: "I am in no way an alarmist but I believe that the time is at hand when it behooves every loyal American to be on the alert to prevent the spread of anarchy as exemplified by the activities and teachings of the I. W. W. Bolsheviki and kindred organizations. We must resort to stern repressive measures."

"I have been wearing my shoes with Neolin Soles nearly a year, and they are apparently in as good condition as when bought them."—Written August, 1918, by W. H. Cooke, Officer, A.E.F., France.

Only Neolin Soles could endure a test like this. That they do so is because of the tough durability built into them by a scientific process. To cut your shoe bills down, buy shoes with these long-wearing soles. They come in many styles for men, women, and children.

Remember—Neolin Soles are flexible and waterproof, too, and are available everywhere for re-soles. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear all other heels.

HIGH WHEAT PRICE IS CUTTING OTHER GRAIN PRODUCTION

Washington Says Canny Farmer is Sowing Wheat to Get Price.

CORN ACREAGE LOW

Drop in Other Grain Crops Will Boost Meat Prices, Belief.

Washington, D. C., Feb. 12.—With the experts calculating that maintenance of a high price of wheat by the government will prevent appreciable reduction of the cost of living for a year or more, and with demands for cheaper bread going up from industrial centers, where unemployment is increasing, congress will be in the midst of a struggle with this economic question about the time President Wilson arrives from Europe with millennial plans in his pocket.

From all the agrarian constituencies come the tiding that the farmers, with a bumper winter wheat crop planted, are putting every available foot of soil into spring wheat in order to garner the wartime price of \$2.26 a bushel. Acreage of corn, oats and other cereals is being considerably restricted in favor of the more profitable wheat.

React in High Meat Prices.

It is admitted that short crops of stock feeding grains will make less beef and pork and continued high prices for meats. Some statesmen foresee so large a crop of wheat and so great a drop in the market price that the \$1,000,000,000 it is proposed to appropriate will be insufficient to cover the loss to the government occasioned by paying the farmer the guaranteed price and selling the wheat to the consumer at the market price.

Other statesmen predict that the foreign demand will be such that the market price will not decline greatly below the guaranteed price, in which event the loss paid by the taxpayers will be small, but bread not much cheaper.

Proposals of Relief.

Various remedies for the situation have been suggested. One, that spring wheat, which has not been planted, be exempted from the guarantee on the theory that this is a contract with the farmers which may be canceled like other war contracts now being canceled wholesale. With the guarantee price applying to winter wheat only the government loss would be much reduced, stock feeding grains would not be sacrificed to wheat. This suggestion finds little support in congress save among representatives without farmer constituents.

Another proposal is that the wheat price guarantee be limited to the acreage of last year and probably will be offered as an amendment to the \$1,000,000,000 wheat bill which it is planned to attach as a rider to the agriculture appropriation bill, with the southern Democrats contemplating a rider to the rider in the shape of a government bonus of \$800,000,000 or thereabouts to the cotton planters.

"Wheat is the gold standard of grains," said Chairman Lever of the house committee on agriculture.

"With wheat unusually high for peace times and all farmers planting it, there will be a shortage of corn, oats, and other grains, which, in turn, will be high priced. This will make stock feeding expensive and the consumer must pay the price."

"But I candidly can see no way out of the dilemma. If we paid \$2.26 for winter wheat and excluded spring wheat, which as yet is not planted, we would be showing bad faith to the farmers. Also it would be impossible to distinguish between winter and spring wheat in making payments."

"The spring wheat area promises to be the largest in our history. Grazing land never before under cultivation will be planted. This will entail an enormous loss to the government. But I fail to see how it can be avoided."

"We know of cases where farmers sold their seed wheat for \$2.26 and bought it back for \$1.50." As the country uses some 90,000,000 bushels of seed wheat this loss alone to the government is tremendous.

"See It Through."—Cannon.

"There is nothing else for the government to do but keep its promise to the farmers." Representative Cannon said. "We guaranteed the price of wheat and the farmers did their share during the war. Naturally the bargain will mean continued high prices for foodstuffs, but—"

And he shrugged his shoulders.

PROGRAM COMPLETE FOR FATHERS-SONS EVE.

The final arrangements for the second annual Fathers' and Sons' banquet were made today and those who attend the affair Friday evening are assured of a fine time. The address of the evening on "Pep and Pop" will be delivered by George D. Rogers, of Clinton, Ill., and Rev. E. C. Lumsden of this city will respond to a toast, "If I Were a Boy Again."

A real feature of the evening promises to be a toast by one of the boys on the theme, "What I Would Do If I Were a Dad." Following the feast of eats and addresses there will be an indoor base ball game between a Fathers' team, captained by Thomas Guillon, and a Sons' team under the leadership of Leslie Bramer. A basket ball game between picked teams will conclude the evening's entertainment.

BASKET BALL TEAM TO MENDOTA THIS EVE.

The association basket ball five will go to Mendota this evening to engage the fast high school team of that city. A few of the fans will accompany the players.

ASSN. ORCHESTRA HELD FINE REHEARSAL.

The recently organized association orchestra held a fine rehearsal last evening with eleven members present. The musicians are rapidly acquiring ensemble and some dandy music may be expected from the organization in the near future.

NEW CLASS TO HOLD FIRST MEET TOMORROW.

The first meeting of the Friendship Campaign Class, which is now being organized under direction of Prof. H. C. Feister, will be held tomorrow evening at 7:15 o'clock. The subject will be, "What is a Man Worth?" and following the study there will be eats for the class members.

After the "Flu" —Fever or Cold

Clean the Acidity and Toxic Poisons Out of the Digestive Tract

Millions are now suffering from the after effects of the deadly "flu," a fever or a cold. Their appetites are poor; they are weak, and they are waiting for their strength to come back. If these people could only realize that the return to health and strength would be greatly helped by giving attention to the stomach—that is, removing the acidity and toxic poisons from the entire digestive tract, making it act naturally, so that the body will receive the full strength of the food eaten—a great deal of suffering would be saved to humanity.

Everyone knows that the disease itself, and the strong medicines that have been taken, upset the stomach, leave it hot and feverish, the mouth dry, the tongue coated, a nasty taste, and no desire to eat. This is a poor foundation to build new strength on. Now, tens of thousands of people all over this country are using EATONIC for the purpose of cleaning these poisonous after-effects right out of the system and they are obtaining wonderful results—so wonderful that the amazingly quick benefits are hardly believable, just as shown in the remarkable letter which is published upon the request of this sturdy old Civil War veteran. He is 77 years old. Read what he says EATONIC did for him:

"I am an old soldier, past seventy-seven years. I had the Spanish influenza and it left my stomach in an awful shape. I tried three different doctors but got no relief. As a last resort I sent and got a box of EATONIC and to my greatest surprise the very first tablet I took helped me. I can now eat anything I want, and feel fine."

Yours faithfully,

Powder, Indiana C. S. Martin

P.S.: If you can make any use of this letter for suffering humanity, you are at liberty to do so. C.S.M.

This is only one case out of thousands. You should make the EATONIC test in your own case at once. You have everything to gain—not a penny can you lose, for we take all the risk. Your own common sense, your own feelings, tell you that a good appetite, good digestion, a good stomach, with the lever poisons and effects of strong medicines out of your system, will put you on the road to strong, robust health again.

You want to enjoy life again after you have battled with the "flu," fever or colds, or any other illness that has taken your strength. You want to get back your old-time vigor, be full of pep and enthusiasm—be able to work with ease, instead of listlessly, half-heartedly dragging out a mere existence.

So be sure to take a box of EATONIC home with you today. We cannot urge this too strongly. If EATONIC fails to give you positive beneficial results, it will not cost you a penny. There is no risk—the benefit is surely all for you.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes

—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition 10c and 25c per box. All druggists.

What's the difference between sending soldiers to Russia and sending
 soldiers to Turkey? It has been held that we can not assist in policing Tur-
 key because, technically, we are not and have not been at war with that
 country; yet we have 15,000 men fighting and freezing in Siberia, and we
 are not and have not been at war with Russia. It may or may not be ad-
 visable to send an army to Russia, or keep the men there who have already
 been sent, but this is not the question. What is troubling the American
 people is to know how the administration will explain the inconsistency of
 its action in the matter. The old Yankee saying, "what's sauce for the
 goose is sauce for the gander," seems apt in this instance.

Wisconsin is trying through its legislature to balk bolshevism within
 its borders. Wisconsin is a loyal state and always goes over the top in
 matters of patriotism, but with its large element of bolshevism, its socialist
 groups and its various disloyal settlements of foreigners, it sometimes looks
 as if the badgers would be obliged to give up the fight. However, when
 everything looks darkest, the good people of the state buckle on the armor
 of loyalty and put up a fight that sends the Bergers and their cohorts to
 cover. Just now a group of Milwaukee socialists in the legislature is doing
 its best to block action against bolshevism—but mark it—Wisconsin will
 come clean at the finish.

Henry P. Fletcher, ambassador to Mexico, reports the dawn of an era
 of friendship for this country in the republic across the Rio Grande, and
 attributes this happy fact to the recall of German Ambassador Von Eckhardt
 and the consequent cessation of anti-American propaganda. It has been
 well understood recently that most of our trouble with Mexico had its or-
 igin in German intrigue, and we may expect hereafter a better understand-
 ing between the two republics, which have so many interests in common
 that neither can afford to cultivate a feeling of dislike for the other.

"Every soldier who put on the uniform of the United States, who fought
 or trained to fight, will have a job if he wants it," says Secretary Baker.
 This sounds Bakersque, indeed. Will the secretary tell the public just
 what he or his department has done to bring about the fulfillment of this
 optimistic prophecy? One thing is sure. When the returned soldiers do
 find jobs their pay will come much more promptly than Secretary Baker
 and his war risk bureau have been in the habit of paying soldiers and their
 dependents.

Premier Crespì of Italy proposes a tax upon all members of the pro-
 posed league of nations, including neutrals, which would be put into a com-
 mon fund along with the indemnities to be paid by Germany, and periodi-
 cally apportioned among the different nations, as the league may direct.
 The Italian premier holds that the neutrals who have benefited and even
 grown rich through the suffering and sacrifice of the allies should be made
 to help compensate the allies.

The red flag of bolshevism has been unfurled in Turkestan. It seems
 that no country is so remote from the beaten paths of civilization as to es-
 cape the ravages of this red plague. Yet civilized nations, just emerging
 from a great war, are asking these same bolsheviks to meet with them to
 talk of peace, a peace that can not exist where the spirit of bolshevism
 rules.

The latest story of Hun propaganda comes from Coblenz, where Ger-
 man shopkeepers have been convicted in military courts on the charge of
 circulating propaganda among American troops. The Huns have the propa-
 ganda habit so strong that it seems to stick to them when it is no longer
 useful.

Under the Utopian scheme of internationalism we shall have no use
 for the brand "Made in America." Having thrown nationalism into the
 discard, it will be sufficient, we presume, to mark our products "Made on
 Earth."

That was a heartless brace of bandits who robbed a Chicago brewery
 of its payroll money Saturday, so soon after the country had put the brew-
 ing business on the rocks. Troubles never come singly.

Latest reports have it that the president is working like a beaver in an
 effort to put the league of nations over the top before he pays his contem-
 plated visit to the United States.

Two radical movements that were pretty strong before the war have
 certainly lost their popularity. Who brags about being for socialism or
 government ownership now?

Chicago has a woman candidate for mayor. The world surely does
 move.

"UH-HUH" TABOOED BY NEW ORDER IN NAVY

Officers at Great Lakes Insist That Gobs Continued "Aye, Aye Sir."

Chicago, Ill., Feb. 12.—The death knell has been sounded to "Uh-huh," "Right-O," and other like substitutes for "Aye, Aye, Sir," in the navy, according to the Great Lakes Bulletin, official paper of the Great Lakes Naval Training Station.

"In these days of turmoil in the navy, when sailors wear tortoiseshell glasses and wrist watches and second-class seamen chum with admirals, isn't it remarkable to learn that there is one thing belonging to the real old stuff that some one has the courage to defend?"

"Admiral McGowan, Paymaster

General of the Navy," continues the Bulletin, "has come out flat-footedly for the preservation of the response, 'Aye, Aye.' So much has he been alarmed for fear less it pass out altogether in favor of 'in a minute' or some similar despatch, that he had felt compelled to issue a general order to this effect:

"For young officers—others presumably not needing it. On several recent occasions it has come to my knowledge that the time-honored navy response, 'Aye, aye, sir,' has to a certain extent fallen into disuse, whereas the bush term 'all right' seems to be decidedly on the increase in spots.

"I purposely refrain from any special reference to the oral impossibility 'Uh-huh,' because this cross between a groan and a growl is, of course, quite without the bounds of temperate discussion.

"To the end that there may be no misunderstanding hereafter as to the proper manner in which a junior in the naval service officially replies to a senior, I shall try to tabulate the

same as intelligently as possible: "(a) 'All right' is wholly interdicted.

"(b) 'No sir' is to be used sparingly.

"(c) 'Yes sir' more frequently.

"(d) 'Aye, aye, sir' as often as possible and invariably when the senior's wishes have become known.

"The foregoing remarks and injunctions are commended to the earnest consideration of all concerned, the same as a notice to quit or as a pat on the back, according to the past proclivities of each individual reader."

WOMEN HAVE MUCH TO DO IN RECONSTRUCTION

Mrs. Phillip North Moore, Pres. of Natl. Council, Makes Address.

AT PEACE MEETING

Chicago, Ill., Feb. 12.—Women should give careful study to the problems growing out of the war, Mrs. Phillip North Moore, president of the National Council of Women, declared in an address Tuesday before the "National Congress for a League of Nations." The congress is being held under the auspices of the League to Enforce Peace.

"It is expedient," she said, "that some plan should be formed for maintaining right and peace which, according to the history now being written, must be international. We must build up, reconstruct, till the ground, cultivate and enrich, and dismiss the burden and terror and waste of war."

Mrs. Moore reviewed the activity of women in various lines of war work in the United States and in allied countries, paying especial attention to their records in the industries of France and England.

"There were always numbers of women ready to work," she continued. "The difficulty was that they were untrained, ignorant of any orderly conception of their occupation. It is obvious that one of the great lessons of the war-to-women—has been the value of training. Those who are ambitious in their work will insist on better training and will demand that, when genuinely skilled, they shall be allowed to fill skilled posts at skilled wages."

Mrs. Moore told of the growth in legislation designed to protect children and women in industry and out of it, explaining the need and some of the results of the "children year" fostered by the federal government. She concluded:

"There were two things worth dying for. One was the successful prosecution of the righteous war. The other was, and is, to keep down as much as we can the awful cost to the young, to the children born and unborn. We fought with clean hands and pure hearts so that no poison philosophy or heritage of hate should enter our children's minds to make them less worthy of the supreme sacrifice the world was making."

FORMER DIXON MAN IN IMPORTANT POSITION

Robert L. Morton One of Leading Business Men of St. Louis, Mo.

The St. Louis Chamber of Commerce has as the chairman, Robert L. Morton, well known to Dixon people. Mr. Morton built and lived in the house in Bluff Park now occupied by Dr. S. W. Lehman. His son, Stratford, and daughter, Marjorie, were born there. The son is now connected with his father in business. Mr. Morton was very popular in Dixon, a most elegant and polished gentleman.

Mr. Morton, of the firm of Morton & Morton, general agents, Connecticut Mutual Life Insurance company, is also president of the Life Underwriters association of the Rotary club of St. Louis. Before entering the insurance business in 1911, he was connected with the Shapleigh Hardware company for ten years and previous to this was sales manager for the Simmons Hardware company. He spent 18 years with the latter firm.

Not only is he active in the insurance business, but he has always taken an interest in other activities, being past potentate of Moolah Temple, A. A. O. N. M. S., and past commander of St. Aldemar Commandery, K. T.

Before and After

London, Jan. 12.—(Correspondence of the Associated Press.)—Incidents of men stretching the truth considerably to get into the British army when England needed every man and then resorting virtually to mutiny to get out after the armistice was signed have been shown at Folkestone during investigation of the first demobilization demonstrations there. After several hundred men had declined to embark for France at the end of their Christmas leave the military authorities began investigating each case separately.

One man who might be judged anywhere from 38 to 50 years of age, appeared before the examining officers.

"On what ground do you think you should be released now?" he was asked.

"I'm more than 41 years of age," he said relying upon the rule that men of that age or more should be released as soon as possible.

"But your army book shows you enlisted fifteen months ago at the age of 35."

"I gave that as my age to get in, sir. I am 50 years old now."

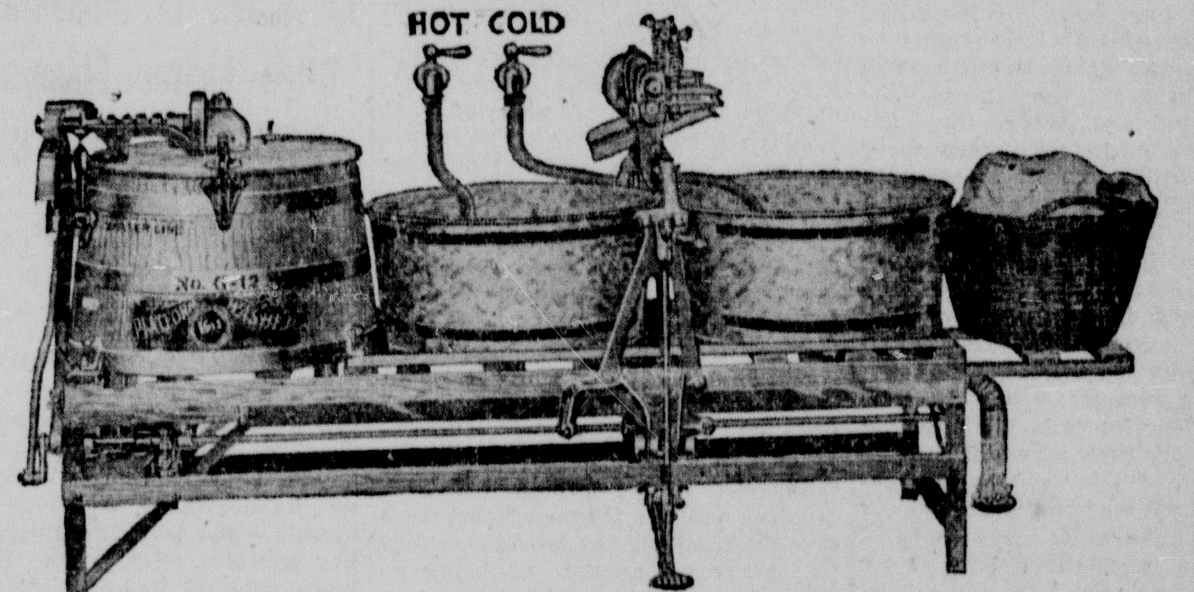

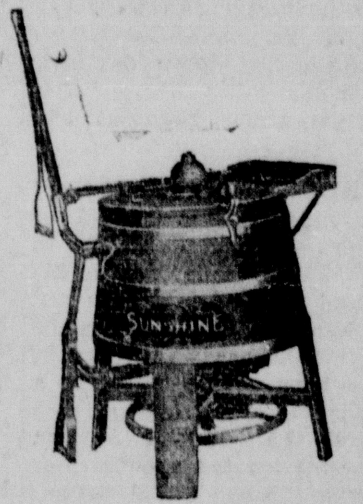

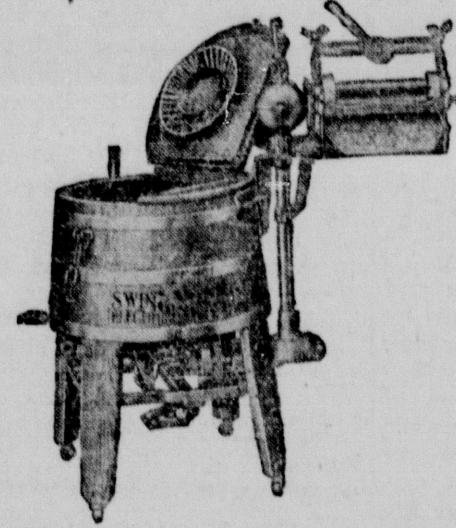

Washed Out

Yes, and your wife will be, too, unless you get her the washing necessities which will make her work easier.

We make a specialty of supplying everything needed for wash day from a clothespin to an electric washing machine. Come in now and make a selection.

We are showing ten different styles of Washing Machines, including power, electric and hand.

We are prepared to demonstrate to you the type best adapted to your purpose.

The Household washing is the great family labor problem. If it is hired done the old way enough is soon paid to buy a power washer. If the housewife undertakes to be her own laundress the day is too short and the strength too frail. The modern and easy way out of it is to put in an Electric or an Engine-power Washer and have the washing on the line before nine o'clock, whether by hired laundress or by the housewife's own hands.

Wash Boilers from a big, heavy \$7.00 copper one down to galvanized iron ones at a new price of one-fifth less than they were. Sad Irons \$1.50 a set and upwards and electric sad irons at \$3.75 to \$7.00.

We have a new price on galvanized tubs. You can now buy a big one, over 2 feet across, with wringer attachments for \$1.90. On galvanized pails, we are and have been below the market all through the war.

You will find here Clothes Baskets, Ironing Boards, Clothes Lines and Clothes Pins.

SOLDIERS' LETTERS

Mrs. Hollis Prescott has received the following interesting letter from Ira W. Lewis, with the 123rd H. F. A.:

Doulaincourt, Haute-Marne, France,
December 5, 1918.

My Dear Mrs. Prescott:

I have intended for a long time to write a long letter to you, but have had so little time to write and when a chance would come it would come it would be so cold in the billet that we would have to keep bundled up with mittens on, and I couldn't write. It is warm enough today that we have our door open, blouses off, and no fire in the stove. It is quite warm for December (to us). It is a warmer climate here, anyway, than it is at home. People still leave their house plants out of doors daytimes most of the day, yet. Every house has a few geraniums, begonias and fuchsias.

Lloyd and I both keep well except for colds. He is in command of Headquarters company and early in September had me transferred to his company and just recently has put me in for supply sergeant and since then I have been especially busy.

We have been at the front for a long time, leaving the training camp at Valdahou, the 22nd of August. Our first drive started the 12th of September in the St. Mihiel Salient, and our part (artillery) lasted one night and one day. We took the Germans completely by surprise as we started the drive at one o'clock in the night and in the rain, and the Germans did not think that the Americans would start a drive under those conditions. They retreated in a hurry and only answered back with five shots. Some of our men found where they had left a meal partly prepared, potatoes peeled and canned meats and vegetables opened. Some of our men were ordered to go ahead during the barrage and turn around the cannons, which the Germans in their hurry had left behind them, and fire their ammunition back after them. During a 11 our marches at the front we found ever so many German cannon which had been turned around and short back after them.

Our next drive, in the Argonne forest, northwest of Verdun, started the 25th of September and we were relieved by other artillery and sent back to a rest camp where we have been for six weeks or more.

We had a good many narrow escapes while at the front. I have slept or tried to sleep night after night with shells flying through the air thick and fast, coming from all directions, but my number was not called and I got through it safe. Either those German shells were no good or I was not worth killing.

One place where we camped was

in the edge of a forest on the Von Hindenburg line and some of our men slept in the German dugouts. Just over the way from where we camped was an open meadow and in one corner of this meadow we buried thirty men from our brigade. It was a very sad sight, but saddest of all was to see three brothers laid side by side in one grave. What an awful shock it must have been to the poor mother when she received the news of the sons' deaths. They belonged to another regiment of artillery and were gassed.

Another place where we camped was in the open on the side of a hill overlooking "Hell's Valley," a very beautiful valley all thickly settled with troops in shelter tents. At one end of this valley was a town, Montfaucon, wrecked, ruined, solitary, and deserted. One night a shell lit about 30 yards from where I was sleeping and exploded near the picket line, killing 18 horses, and injuring others, some of which had to be killed. Others would live.

Things same night one man was sleeping with his blouse folded up under his head for a pillow and in another tent a man was using his rubber hip boots for a pillow and both boots and blouse were torn by pieces of shell but the men unhurt. Four men who slept so near the picket line that one of the horses in falling just missed their tents were not hurt at a 11 when the 18 horses were killed. In another tent one man laid his steel helmet near his head and a piece of shell was driven through the helmet, leaving holes larger than a silver dollar but the man was unhurt, only nearly deafened by the noise. A piece of shell was driven through five shelter tents in succession, in a row, but none of the men in them were hurt.

These instances all happened the same night but not from the same shell. Surely "the angel of the Lord encampeth round about those that fear Him and delivereth them."

The objective in our first drive in the St. Mihiel sector was Montsec, a town and large mountain by the same name, about six and a half miles east of St. Mihiel, and both Montsec and the Argonne forest were considered about the hardest sectors to capture on account of being so strongly fortified, previously, and so hard to advance on, but we got back from 6 to 10 kilometers with our heavy artillery and shelled them for 12 to 15 hours at a time, then advanced our artillery while the light artillery and machine guns protected the infantry boys in their advance.

France is a very pretty and interesting country and has seen some terrible wars since its history began. We fought over the same ground where Caesar's Gallic wars took place and where Napoleon lived and conquered. We received our 3 1/2 weeks training in artillery in the "foothills of the Alps."

How is everyone in Dixon that I know and am interested in? Remember me to George, Homer, Daisy, Juliet and Mabel and their families.

There's no fighting going on now, but we don't know how soon we are going to leave for home.

Lloyd sends his best regards to all, too. With kindest regards from,

IRA W. LEWIS.

Hdq. Co., 123rd F. A.

P. S.—Out of our whole regiment only seven men were killed in action and three died from natural causes. Three of the seven were from C Battery, and six of the seven were from the 2nd Battalion.

Illinois in Allegiance of Non-Partisan League

By Associated Press, Leased Wire
Chicago, Ill., Feb. 11.—An alliance of union labor in Illinois and the Non-Partisan League has been projected as a result of a conference yesterday between Gov. Frazier, of North Dakota and leaders of the recently organized Chicago Labor Party. Representatives of union labor bodies and farmers' organizations in Illinois and the delegates from thirteen states where the league is already organized will meet soon in Springfield or Chicago, it is said.

Look at it now—the little yellow tag.

An Attack of Influenza Often Leaves Kidneys In Weakened Condition

Doctors in all parts of the country have been kept busy with the epidemic of influenza which has visited so many homes.

The symptoms of this disease are very distressing and leave the system in a run down condition. Almost every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to dangerous kidney troubles. Druggists report a large sale of Dr. Kilmer's Swamp-Root which so many people say soon heals and strengthens the kidneys after an attack of grip. Swamp-Root, being an herbal compound, has a gentle healing effect on the kidneys, which is almost immediately noticed in most cases by those who try it. Dr. Kilmer & Co., Binghamton, N. Y., offer to send a sample size bottle of Swamp-Root, on receipt of ten cents, to every sufferer who requests it. A trial will convince any one who may be in need of it. Regular medium and large size bottles, for sale at all druggists. Be sure to mention this paper.

Ask Over Million for State Armories

By Associated Press
Springfield, Ill., Feb. 11.—The usual biennial scramble for state armories has begun in the legislature with fourteen bills introduced in both houses. They ask appropriations that total more than a million dollars for armory buildings and sites.

All of the measures have gone to the committees on appropriations which have not yet given them attention.

Bills thus far introduced ask armories at the following places:

Decatur, \$200,000.
Peoria, \$150,000.
Rockford, \$125,000.
Danville, \$200,000.

Cairo, \$50,000.
Elgin, \$100,000 and \$20,000 additional for site.
Sterling, \$50,000.
Sycamore, \$50,000.
Pontiac, \$75,000.
Evanston, \$100,000.
Lincoln, \$150,000.
Freeport, \$100,000.

PUBLIC SALE

At Woodlawn Farm, Just West of Sterling
THURSDAY, FEBRUARY 20

15 HORSES AND MULES

Four mules, one extra choice team of very large mules. Eleven trotting and road bred horses including Gold Alice, 2:21 3/4 (bred to The Guide, 2:07 1/2, the great son of Peter the Great), Pearl Williams, 2:23 1/2 (bred to The Guide) Kentucky Princess (sired by Kentucky Todd, 2:08 1/4, the great futurity winner and sire of a number of great race horses, the dam of this filly is Priscilla, 2:24 1/4, she in turn a daughter of old Priscilla, the dam of nine standard performers from 2:09 1/4 to 2:29 1/4). This young filly is certainly bred right to make a great race mare; she has never been handled but we hope to hitch her a few times before sale day; Legeta (sire Legateer, 2:13 3/4, dam Debuture, 2:19 1/4, the dam of Debutly, 2:14 1/4; Legature, 2:14 1/2; Eureka Maid, matinee record 2:16 1/2; Brown Boy trial 2:19 1/4). This young mare is, to our notion, the best individual of all debuture foals, remarkably handsome, great natural speed; she has never been trained, is bred to The Guide and shows to be in foal; Debutor, full brother to the mare above, a coming two-year-old gelding of extreme promise, he is surely the making of a great race horse. In addition to the above we will sell several other geldings from two to four years old by Legateer, some of them are broken, some of them will only be hitched a few times by sale day. Among the lot are several handsome colts that will develop into good driving horses.

SHETLAND PONIES

We have some one-half dozen or more Shetland ponies, geldings that will be offered at public or private sale on this day.

BROOD SOWS

25 head of choice brood sows, most of them Duroc-Jerseys or Chester Whites.

FARM MACHINERY

We have leased on a share basis all our farm land for another year. The machinery offered is much of it new within the last two or three years and consists of the following articles: 2 sulky plows; walking plow; Key-stone side delivery rake; corrugated roller; pulverizer; twelve foot disc drill; Moline corn planter; Deering corn binder; 2 Moline combination corn cultivators; seed corn grader; Keystone hand sheller; fanning mill; feed cutter with pulleys; large stover feed grinder with pulleys; one heavy teaming wagon; 2 farm wagons; covered milk wagon; 2 delivery open milk wagons; 2 wagon boxes, one nearly new; 3 hay racks; several carts, buggies, etc.; miscellaneous lot of harness, collars, etc., and other articles too numerous to mention.

ROAD MAKING MACHINERY

Two self dump wagons, scrapers, slips; road plow and other articles, too numerous to mention.

CEMENT MAKING MACHINERY

One continuous air space cement block making machine with exclusive right to "use this machine in Whiteside county. This is the only machine on the market that makes cement blocks and absolutely does away with dampness as the blocks are held together by anchors. The lower part of the residence on Woodlawn farm is built out of blocks built from this machine. Also one cement block machine making the ordinary standard block in general use in this community; cement brick making machine, the upper part of residence on farm is built from these bricks.

GASOLINE ENGINES

*One stationary six-horse Charter gas engine, also three small mounted pumping engines.

SALE WILL BEGIN AT 10:30. FREE LUNCH AT NOON.

TERMS—Cash or approved interest bearing notes from date.

The FORDSON is more than a Tractor

IT HAS proven to be such an economical, efficient, durable tractor that it pays for itself within a few months' time if used only for plowing, discing, harrowing and other field work.

But the Fordson is more than a tractor. It is an economical, powerful, portable power plant that will drive any kind of belt-driven farm implement.

With this power plant you don't have to spend valuable time dragging around a heavy cumbersome gas engine.

Down in the wood lot, sawing up the winter's fuel—up in the barn yard, filling the silo—baling hay—grinding feed—everywhere on the farm, every day in the year, there are jobs for this wonderful, portable power plant.

The Fordson is provided with a belt pulley placed at the right side of the transmission housing. It is driven thru a beveled gear.

With a pulley at the right-hand side, and the belt running forward, it is easy for the driver to line up the pulley properly without leaving his seat.

The powerful Fordson engine is 22 horse power at the pulley at 1000 R. P. M. This is ample power to do any work on the farm. The pulley is 9 inches in diameter, and is designed for a six-inch belt.

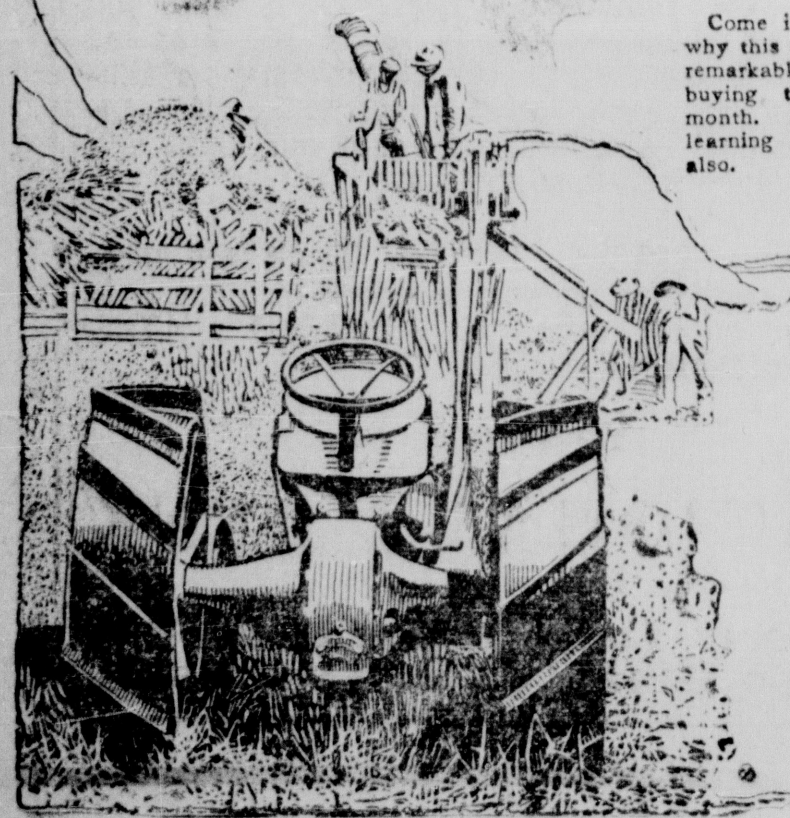

Don't think of the Fordson merely as a tractor—think of it as one durable, efficient power unit that not only replaces the horses on field work, but also replaces the stationary gasoline engine, besides doing scores of jobs that have formerly been done by hand.

Come in and let us show you just why this tractor has proven such a remarkable success—why farmers are buying them by thousands every month. You will be interested in learning how we handle the service also.

DIXON HIGH SCHOOL NEWS

(By Robert Shaw.)
Social Was Successful.

The social, held after the Mt. Carroll-Dixon High game, was very successful. The girls of the D. H. S. brought candy and it sold like hot cakes. Coffee and doughnuts were also sold. The attendance at the game was the best of the season. The bleachers were packed to the limit. Utley Noble stood up. The final score was 37-7 in favor of Dixon. The Mt. Carroll quintet passed the night in Dixon and returned home Saturday morning.

Entertained.

Miss Marian Cahill and Mary Louise Fuller entertained Willard Jones and Richard Haley Saturday afternoon at the Cahill residence at a candy making.

Frolics Dance.

This coming Friday night at Rosbrook hall, with the Marquette orchestra playing, the Frolics' Club of the D. H. S. will give a dancing party to which all are cordially invited. This will be a St. Valentine's party, with dancing from 9 until 1 o'clock.

Edward Condon visited school Friday afternoon.

Wonder whose neck they strained the coffee through last Friday night at the social—Byers?

The Mayor Question.

Why not have a "boy mayor" of Dixon, like they have in some other cities? If there are any candidates

from the high school, notify the editor of this column. There are boys like Gerald Barry, Clark Hess, Wilbur Clayton, Ermin Miller, and Will Tine, who would make fine mayors.

Dancing.

It is planned by the high school to set aside every Friday afternoon after school for dancing, the gymnasium to be used. Last Friday this was done and was a great success.

The basketball team is in for a strenuous workout from now until the tournament at Rockford, to be held in three weeks. Coach Vazino is having more rigid workouts for the team.

COMPTON.

Mrs. Nettie Cook arrived home the first of the week from Rockford, where she had been visiting relatives.

Mrs. Wilbur Merriman visited home friends Monday.

Miss Minnie Kutter, of Mendota, visited at the L. W. Kutter home a few days last week.

Arlo Gilmore and family spent Sunday with Mr. and Mrs. J. Wolford at Ashton.

Mr. and Mrs. Fred Betz and son, Roscoe, of Oswego, spent Monday with Compton friends.

C. L. Ogilvie made a business trip to Peru Saturday.

Sparks from the chimney on the Jesse Fox residence started a bad fire on the roof Saturday morning. The flames were not extinguished until the front part of the house had been badly damaged. Through the assistance of neighbors all of the household furniture and clothing were saved. Mr. Fox and family are now occupying the M. E. parsonage.

Mrs. Charles Carnahan is visiting her sister in Detroit this week.

William Webber motored to Rockelle Friday and was a caller at the Russell Hamaker home.

The teachers of the Compton school resumed their duties Monday morning after a two weeks' vacation because of the "flu."

Grand Detour Gets Smoke of Big Fire?

People of Grand Detour were concerned this afternoon over the possibility of a forest fire north or northeast of that place. The air became very heavy with dense smoke, which had every indication and smell of having come from burning trees and underbrush, but inquiries by the people of the community failed to disclose any conflagration.

TO ALL WOMEN WHO ARE ILL

This Woman Recommends Lydia E. Pinkham's Vegetable Compound—Her Personal Experience.

McLean, Neb.—"I want to recommend Lydia E. Pinkham's Vegetable Compound to all women who suffer from any functional disturbance, as it has done me more good than all the doctor's medicine. Since taking it I have a fine healthy baby girl and have gained in health and strength. My husband and I both praise your medicine to all suffering women."—Mrs. JOHN KOPPELMANN, L. No. 1, McLean, Nebraska.

This famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, has been restoring women of America to health for more than forty years and it will well pay any woman who suffers from displacements, inflammation, ulceration, irregularities, backache, headaches, nervousness or "the blues" to give this successful remedy a trial.

For special suggestions in regard to your ailment write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.
